

LA SOTTRAZIONE

1 Rappresenta ogni sottrazione tracciando una **X** sugli animali che togli.

$$3 - 1 = 2$$

$$5 - 4 = 1$$

$$8 - 5 = 3$$

2 Osserva i disegni e completa.

$$4 - 1 = \dots\dots\dots$$

$$8 - \dots\dots\dots = 3$$

$$6 - 3 = \dots\dots\dots$$

SOTTRAZIONI DISEGNATE E SULLA LINEA DEI NUMERI

1 Rappresenta con il disegno ed esegui le sottrazioni.

$6 - 2 = \dots\dots\dots$

$7 - 1 = \dots\dots\dots$

$5 - 5 = \dots\dots\dots$

$9 - 6 = \dots\dots\dots$

2 Esegui le sottrazioni con l'aiuto della **linea dei numeri**.

$9 - 1 = \dots\dots\dots$

$5 - 4 = \dots\dots\dots$

$7 - 3 = \dots\dots\dots$

ANCORA SOTTRAZIONI

1 Colora solo le sottrazioni corrette.

$9 - 0 = 9$

$5 - 1 = 4$

$7 - 6 = 0$

$3 - 0 = 0$

$6 - 4 = 2$

$1 - 9 = 8$

$4 - 4 = 0$

$7 - 2 = 5$

$9 - 6 = 3$

2 Completa gli schemi.

PIÙ O MENO?

① Completa con il segno + oppure -.

$5 \dots 3 = 8$

$4 \dots 2 = 6$

$3 \dots 1 = 4$

$6 \dots 5 = 1$

$1 \dots 8 = 9$

$2 \dots 1 = 1$

$7 \dots 2 = 9$

$9 \dots 9 = 0$

$0 \dots 4 = 4$

② Completa i quadrifogli con i numeri mancanti.
